

Aloha Dr. Kiciman and staff,

These past 5 years under your care have been nothing but the greatest. You all have gone above and beyond to help make sure our little Lance received only the best treatment and medicines he needs.

While we still await his third and final surgery to take place in San Diego, we want to take this time to let you all know that our time in Orange County has come to an end. We recently moved to Fresno as a bigger and better career opportunity presented itself for our family.

We had hoped for the chance to say our farewell in person so Lance could enter those doors one last time in his surf shorts and flip-flops (we call them 'slippers') but the time crept up faster than we had hoped.

Dr. Kiciman, thank you for your welcoming spirit that you've shown us from day one. You have always gone great lengths for Lance and in doing so, relieved a tremendous amount of worry and concern on our end. You also were always accommodating even when you tried to assure us that Lance didn't need to be seen every month though I insisted he did. Having to move away from your care was one of our least favorite parts of this transition.

To the rest of the staff- Cathy, Polo, Debbie, Michelle, Anna and anyone else we may have left out, we can't thank you enough for having to deal with what felt like never-ending insurance and pharmacy issues. That buck will soon be passed to the cardiology staff here in Fresno. Luckily, you have trained me well in knowing how to maneuver our way through those prior auths 😊

Even though we are only a couple hundred miles further away, you will always be in our hearts and never forgotten. Like we say in Hawaii, you are part of our ohana (family) now. Thank you for setting the bar really high for us in our search for a new cardiologist and staff as none will ever come close to the love and care you have given us.

Thank you and we hope to see you again one day.

The Hamocon Ohana

Lawrence, Ashley, Ayla and
