

# SOUTHERN CALIFORNIA RARE DISEASE GENETICS MEETING

Dr. Virginia Kimonis and the University of California, Irvine invites physicians, health care providers, researchers, and patient organizations to our inaugural Southern California Rare Disease Genetics Meeting on Friday, March 8th, 2019. This one-day conference will feature oral and poster presentations, panel discussions, opportunities for networking, and CME and CEU credits.

We are pleased to announce our 2019 keynote speakers:

Jerry Mendell, MD | Nationwide Children's Hospital Center for Gene Therapy

William Nyhan, MD, PhD | University of San Diego, Department of Pediatrics

Arthur Lander, MD, PhD | University of California, Irvine, Developmental & Cell Biology

Fowzan Alkuraya, MD | King Faisal Specialist Hospital, Department of Genetics
